

HISTORY CURRICULUM IN IMMERSIVE REALITY FOR GRADES 9-12

CHOCTAW CODE TALKERS 1918

OVERVIEW

Before the brave Navajo Code Talkers of WWII, there were the Choctaw Code Talkers of WWI. These sons of Choctaw Nation played an important role in communicating military strategies in their native language across battlefield phone lines, helping to win an important victory in northeastern France which led to the end of WWI.

FEATURES

4-minute XR360°™ experience available on iPhone, Android, desktop, and Oculus Quest, plus 3 hours of core standards-aligned course material.

Embedded interactive module including a quiz and just-in-time student inquiry and content exploration

Virtual Field Trip: interactive 360° video of footage from the actual battlefields and forests where the battles took place, with narration in English and French

Supporting curricula: a collection of historical materials about WWI, Native American tribal government, history, and contributions to the U.S. military.

Bonus extended reality holographic content by geolocation: Choctaw Memorial at Tuskahoma, OK, and Native American Veterans Memorial in Washington D.C.

Materials developed with consultations with the Texas Military Forces Museum and Choctaw Nation of Oklahoma Education Department and the School of Choctaw Language.
